

## Gregory's Famous Breakfast

With our new menu we make every effort to ensure our breakfasts are truly special.

Be it a traditional full English, or other options from our extensive menu or if you prefer a special dietary requirement we provide only the best for our guests.

We source fruit from the local 'pick your own' farms to make our fabulous jams, we bake all our breads from fresh, we source our bacon, sausage, black pudding and free range eggs from our local butcher. We even source our honey from our local beekeeper and even make our own marmalade, all to ensure that our guests have the best start to their day.

We pride ourselves at our bed and breakfast catering for people with special dietary requirements including dairy free, gluten free, wheat free and vegan and vegetarian.

Try our special breakfasts – be our guest.
